LIGHTING THE GREAT OUTDOORS.

Customers everywhere are turning to LED fixtures for their unprecedented energy efficiency and long life.

LEDs provide lower energy consumption and reduced maintenance costs due to less frequent replacement.

EiKO carries a broad range of outdoor lighting fixtures to replace conventional systems, including multi-use site and area lights, flood lights, wallpacks, industrial and security lighting.

Available PowerSet and FieldCCeT features allow for multiple "set and forget" lumen or CCT stops in each fixture.

Cylinder Wall Sconce

SIGNAL : FLOOD LIGHT & HIGH BAY

SIGNAL features an output of up to 96,000 lumens. Its lightweight design allows for easy installation and unparalleled energy savings.

VERT : AREA & SITE LIGHT

VERT fixtures are multi-use site and area lights, in multiple lumen packages with precision optics and flexible mounting options for outdoor applications.

BOX : FLOOD LIGHT

BOX is an ideal flood light for square configurations in outdoor wet rated applications, directly replacing traditional technologies.

FL : FLOOD LIGHT

FL is a flood light featuring trunnion, knuckle, or slipfitter mounting options and field-adjustable lumen and color temperature stops.

AFL : ARCHITECTURAL FLOOD LIGHT

AFL flood lights feature superior energy efficiency, advanced optical control, and a modern, streamlined aesthetic for flood light applications.

SCS : SURFACE CANOPY SQUARE

SCS fixtures are multi-purpose solutions for garage and canopy lighting, featuring a quick mount design and a low profile ideal for applications with low .

VTS : VAPOR TIGHT SURFACE

VTS fixtures are high-efficiency solutions for utility lighting applications, surface mount hardware and multiple knockouts for conduit or pendant mounting.

WALLPACK : WALL MOUNT LIGHTS

WALLPACK lights are LED solutions for general purpose wall mount lighting, consuming a fraction of the energy of traditional fixtures.

DTD : DUSK TO DAWN

DTD Dusk To Dawn wall mounted lights are economical and durable and ideal for general area and security lighting.

CWSW : CYLINDER WALL SCONCE

CYLINDER Lights come in Wall Sconce and Surface Mount styles and provide comfortable diffused light.
